Supersedes AFMAN 23-110, VOL 2, PT 2, CH
19/AFMCSUP1, 16 Oct 92

Pages: 3
Distribution: F

AFMAN 23-110, Volume II, Part Two, Chapter 19, is supplemented as follows:

This supplement does not apply to US Air Force Reserve Units.

19.27.1.4. Keep NPPC 5 items without preparing AF Form 86, Request for Cataloging Data/Action, when items are required, until stock is exhausted or until workload terminates.

19.30.4. To obtain approval for adjusted stock levels, prepare an AF Form 1996, Adjusted Stock Level, for each stock number. Process according to Volume 1, Part One, Chapter 12, Section H, Attachment H-1 and H-2. AFMC Chiefs of Supply (COS) are authorized to approve adjusted levels for ERRC XB3, XF3, and NF2 (not AFMC managed) items with a net adjustment of \$5,000 or more.

19.31.2.2. To obtain approval for adjusted stock levels, prepare an AF Form 1996, Adjusted Stock Level, for each stock number. Process according to Volume 1, Part One, Chapter 12, Section H, Attachment H-1 and H-2. AFMC Chiefs of Supply (COS) are authorized to approve adjusted levels for ERRC XB3, XF3, and NF2 (not AFMC managed) items with a net adjustment of \$5,000 or more.

19.31.3.2.2.4. NOTE . Deviation from filing sequence is the option of the Chief of Supply.

19.36.2. Deviation from filing sequence is the option of the Chief of Supply.

19.41.2.1. Command-directed levels in support of tenant activities must be submitted according to their MAJCOM's guidance.

19.42.1. These procedures apply to AFMC activities which manage, account for, store, and issue Life of Systems Stock (LSS) Weapons systems components.

19.42.2. Validations of AFMC LSS must be according to this paragraph. Submit proposals recommending AFMC end articles or systems as candidates for LSS management to HQ AFMC/LGSW in the following manner: 19.42.2.1. The proposal for LSS management must include justification why LSS designation is requested and identification data of the end articles/system; i.e., NSN, NOUN, part number, manufacturers code, source of supply, systems application, and the standard reporting designator (SRD).

19.42.2.2. HQ AFMC/LGSW will provide notification of approval or disapproval.

19.42.3. The parent MAJCOM of tenant organizations is totally responsible for the management (identification, approval, and review, etc.) of LSS systems in support of their units. All correspondence, therefore, will be submitted to the MAJCOM of the supported organization.

19.46.1. AFMC bases will submit requests for ISSLs to HQ AFMC/LGSW.

19.62.1. The mission change monitor for HQ AFMC is LGSW.

19.62.2. At least annually the mission change data (MCD) for each SRD will be reviewed with the AFMC using organization. Place particular emphasis on deleting erroneous data (i.e., non-aircraft item data collected for a specific weapon system). The review should also focus on questionable demand rates. In most instances, the user will have to make this determination. The review may be accomplished by using program R37/NGV853 for the entire SRD table or selected SRDs until the complete file is reviewed and updated. The SRD file update (A01/GV849 Update Option) may be processed prior to processing the R37/NGV 853.

19.74.4.4. It is mandatory, not optional, for AFMC Chiefs of Supply to exercise the procedures in this paragraph.

Attachment A-18, Paragraph A18.1. This is a COS option.

Attachment F-3:**EXCESS EXCEPTION CODES**

CODE	ENC	EXCEPTION PHRASE	ECC REQUIRED	MONITOR
B-T		Assigned as required	As required	As determined locally
U-Z		Reserved for MAJCOM	As determined by MAJCOM	As determined by MAJCOM

JAMES E. EILERS, LT COL, USAF
Chief, Supply Division
